

STAINLESS STEEL GAS PLUG™ (Low Pressure)

Model #:

GO101-SS-50

Product description:

The Stainless Steel Gas Plug™ is an ideal means of safely and securely connecting your barbeque, patio heater, stove or dryer directly to your homes gas supply. The unit is completely enclosed in a stainless steel box and is manufactured with an extra safety feature that ensures the gas supply shuts off before appliances can be disconnected. This provides the owner with not only a peace of mind but a clean method of concealing unsightly pipes and valves.
