## SLEEVE LEAD PATENT PENDING

Sleeve Lead is a new solution to boring across areas that can't be crossed with an open trench. Examples of these areas are:

- Sidewalks
- Driveways
- Landing pads
- Areas with heavy root cover
- Turfed areas

## SUPERIOR DESIGN

- Cleaner, quicker, and more simple than using the water boring method.
- Any length sleeve can be used, unlike other known alternatives where a support rod is necessary inside the sleeve.
- Sleeve Lead is compact and easy to store on any work vehicle.
- If a bore must be abandoned due to a unforeseen obstruction, replacement cost is low.

## APPLICATION

- Currently configured for use with a 2 inch schedule 40 PVC sleeve .
- 2 inch PVC can be used as conduit for any line, cable, or wire that fits within.
- For use with a sledgehammer to drive a sleeve through the ground.
